I write this referral with great enthusiasm for Terri's business Kisses and Cuddles. She is so wonderful and speaks animal speak sooooo well that you will have no doubt when you entrust your beloved pets to Terri.

I have 2 crazy dogs that were the worst dogs at the shelter, Eddie and Marley. They are also bird dogs (German Wire Hair Pointers) which makes them twice as crazy. Marley was brought back to the shelter 9 times and Eddie was there 5 months. They have had a lot of training and have tons of love to give. With the difficulties, I would NOT entrust my dogs to just anyone.

Terri does an amazing job with Eddie and Marley. When I'm out of town I get a text

message with a cute little update and a picture of the boys. I can't tell you how that gives me peace of mind while I'm traveling or maybe just at work late. You'll have to experience it your self. I used to feel guilty when I left them, but now that I have Terri I know their having fun and well cared for.
